SUMMARY I am presently fulfilling a web developer position at Igloo, a Melbourne-based where I am in charge of the front-end development of an online social website for one of australia's leading magazine.

In addition, as an accomplishment of my e-business masters degree I have developed my own project from scratch named **Smokin' Tops** (<http://smokintops.com>) which is a social network allowing its community to create and share Top lists.

SKILLS **WEB RELATED TECHNOLOGIES** Languages : PHP, HTML4/5 , CSS2/3, Javascript, AJAX, XSLT.
Frameworks : jQuery, MVC (CakePHP, Ruby On Rails).
Databases : Database Design and Query Optimization, MySQL.
Softwares : Photoshop, Illustrator, MAMP, Versions, Textmate, JIRA.
Others : Object-oriented Programming, Cross-browser fixes, Testing, Sub-Versioning, APIs (Twitter, Facebook, Google).

E-BUSINESS RELATED SKILLS Major Internet Business Models.
Online Advertising, Social Media Marketing, Web analytics.
Search Engine Marketing, Search Engine Optimisation.
General knowledge of Internet law & policy.
